

I benefit from listening to XM Satellite Radio and its traffic and weather channels. I love how satellite radio provides variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge you, the FCC, to reject the NAB's petition 04-160 and I fully support XM's ability to provide me the kind of programming that I demand and deserve.
